Keep Turf Green & Growing

QUANTA®

Protect your turf against damaging diseases and help it thrive with a high-quality fungicide. Quanta is a unique, EPA-registered potassium phosphite, systemic fungicide/root enhancer used to prevent and treat disease in various turf and ornamental applications.

Quanta works systemically with a dual mode of action to provide protection and recovery from diseases such as Pythium, Downy Mildew and Yellow Tuft. The highly soluble formulation is both effective and easy to use. With a mix of phosphorus acid & IBA, Quanta also stimulates root growth and strengthens cell walls.

Enhance recovery and help turf fight diseases with Quanta.

- Effective control of Pythium, Downey Mildew & Yellow Tuft
- EPA-registered fungicide
- Dual modes of action provide:
    - Direct fungal inhibition
    - Activates immune response in turf
- Highly soluble & rapidly absorbed
