

Superior & Complete Control of Broadleaf, Grassy & Woody Weeds

Velossa is a broad-spectrum herbicide that provides superior and complete control of many broadleaf and grassy weeds, as well as brush and trees on non-crop and forestry sites. Its highly effective, concentrated formulation of hexazinone contains 2.43 pounds of active ingredient per gallon, which is 21% more active ingredient per unit than Velpar® L. Velossa is also non-flammable and free of alcohol and petroleum solvents.

NON-CROP USES

- **Forestry**
 - Site Prep
 - Grid Application
 - Basal Stem Treatment
 - Injection
 - Release
- **Industrial Sites**
- **Brush Control**
- **Other Non-Crop**
